Product highlights

Less colic, gas and discomfort

Tempo Liners collapse as baby feeds, for less air in baby's tummy.

Baby controls milk flow

The Tempo Natural Feeding Nurser promotes healthy, active feeding by letting baby control milk flow more like breastfeeding. This can reduce overeating and spit-up.

Supports breastfeeding

Naturally shaped teat promotes proper latch-on and makes it easier to combine breast and bottle.

Pre-formed, pre-sterilized liners

Tempo Liners are pre-sterilized, disposable and designed with a wider shape to make filling and feeding easier.
